The mission of the NIOSH Health Hazard Evaluation Program is to respond to requests from employees, employers, and union representatives to evaluate potential health hazards in their workplace. These evaluations are done at no cost to the requestor. Once the evaluation is complete, recommendations are made on ways to reduce or eliminate identified hazards. Health Hazard Evaluations can help ...

~~Health Hazard Evaluation Program~~

How the request is addressed largely depends on the nature of the request. In most cases, NIOSH responds with a telephone consultation to discuss the problems and how to correct them. For other requests, NIOSH visits the workplace to learn more about the health hazards present. In a small number of cases, NIOSH refers the request to a more ...

~~Health Hazard Evaluation Program - Wikipedia~~

In contrast to other NIOSH programs, the Health Hazard Evaluation Program is not primarily a research program. Rather, it investigates and provides advice to workplaces in response to requests from employers, employees and their representatives, and federal agencies. The National Research Council was charged with evaluating the NIOSH Health ...

~~The Health Hazard Evaluation Program at NIOSH - NCBI Bookshelf~~

The Committee to Review the HHE Program opted to separate the components to be evaluated as described in the HHE Program logic model (). To be evaluated are the program's inputs (strategic goals and objectives, program resources, and communication from stakeholders), activities (responses to HHE requests), outputs (such as HHE reports and NIOSH published documents), intermediate outcomes ...
